Stimycel™ C • Biostimulant for Exotics and Agaric

Myceliance™

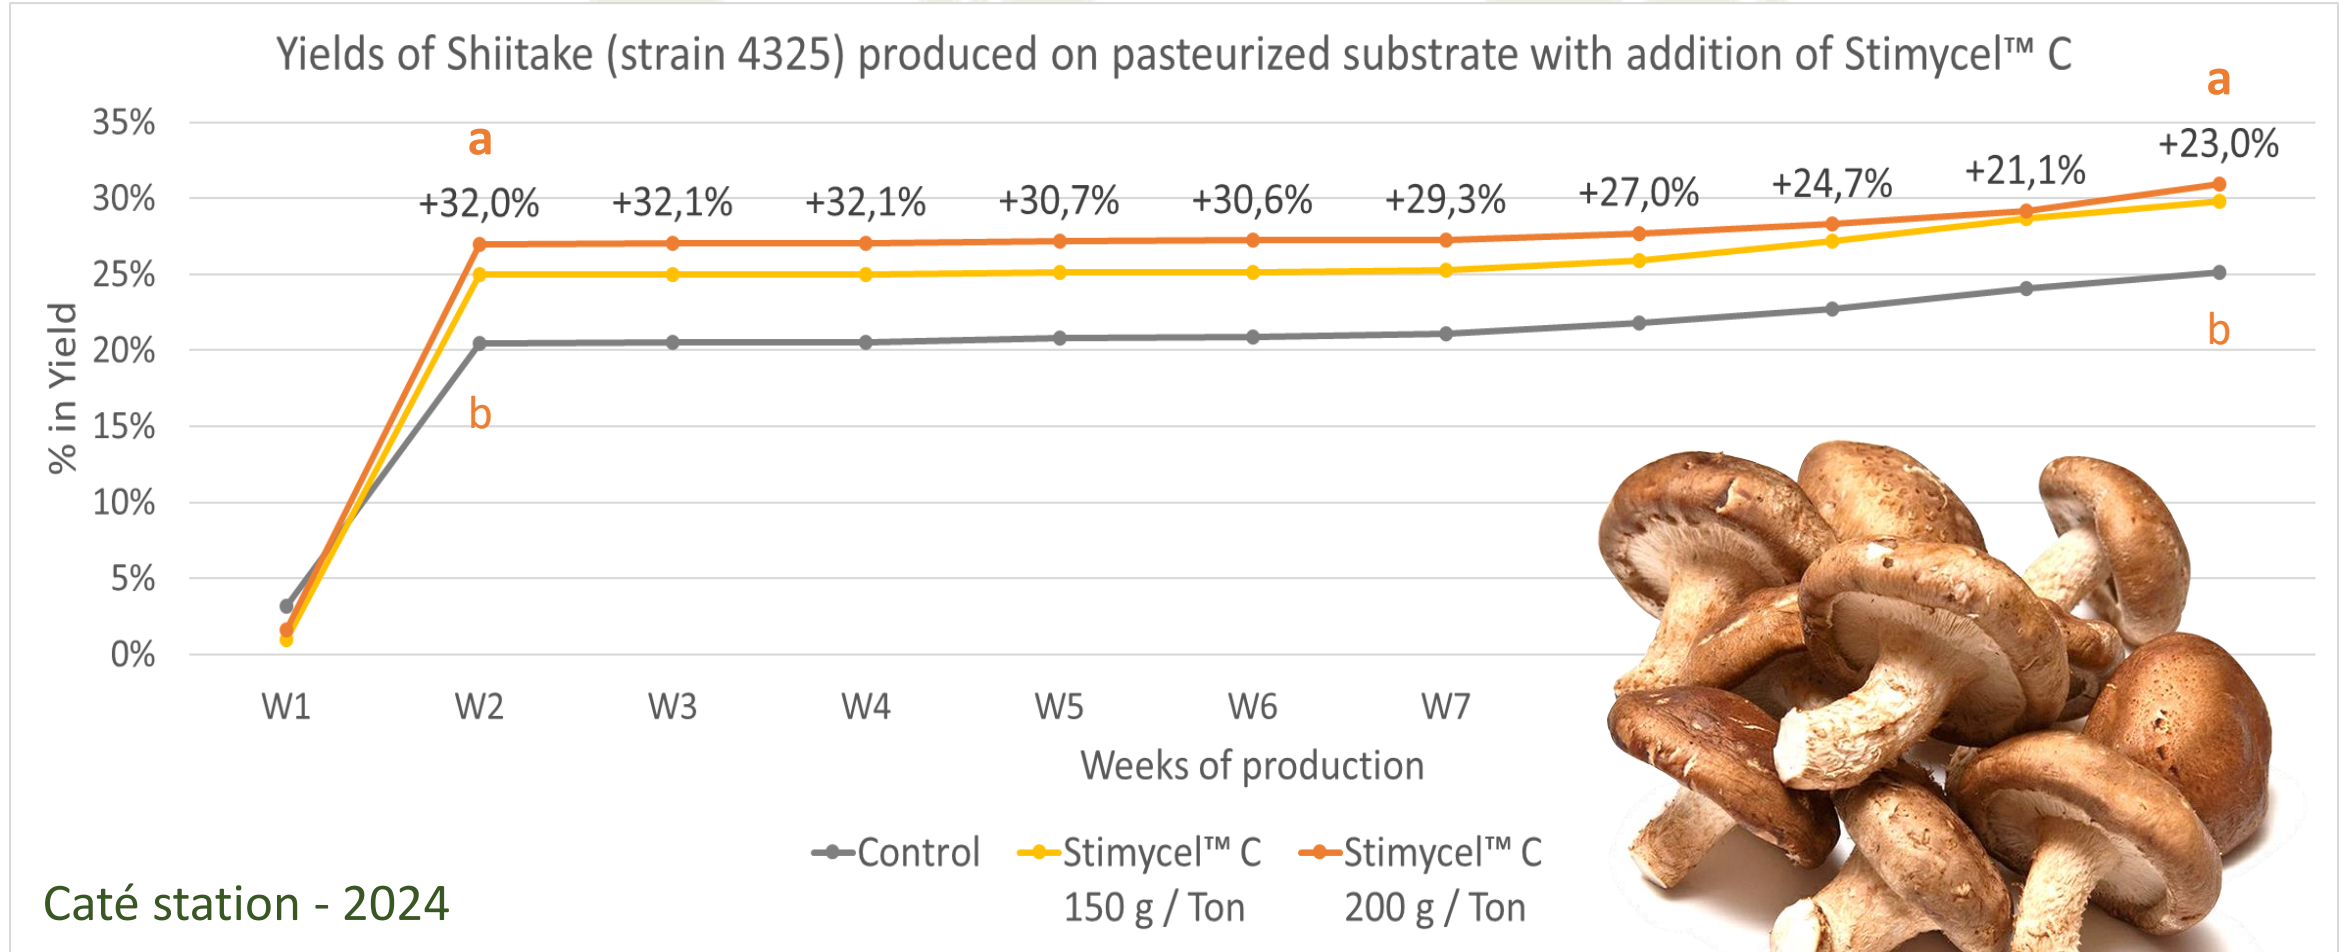

❖ New biosolution for mushrooms :

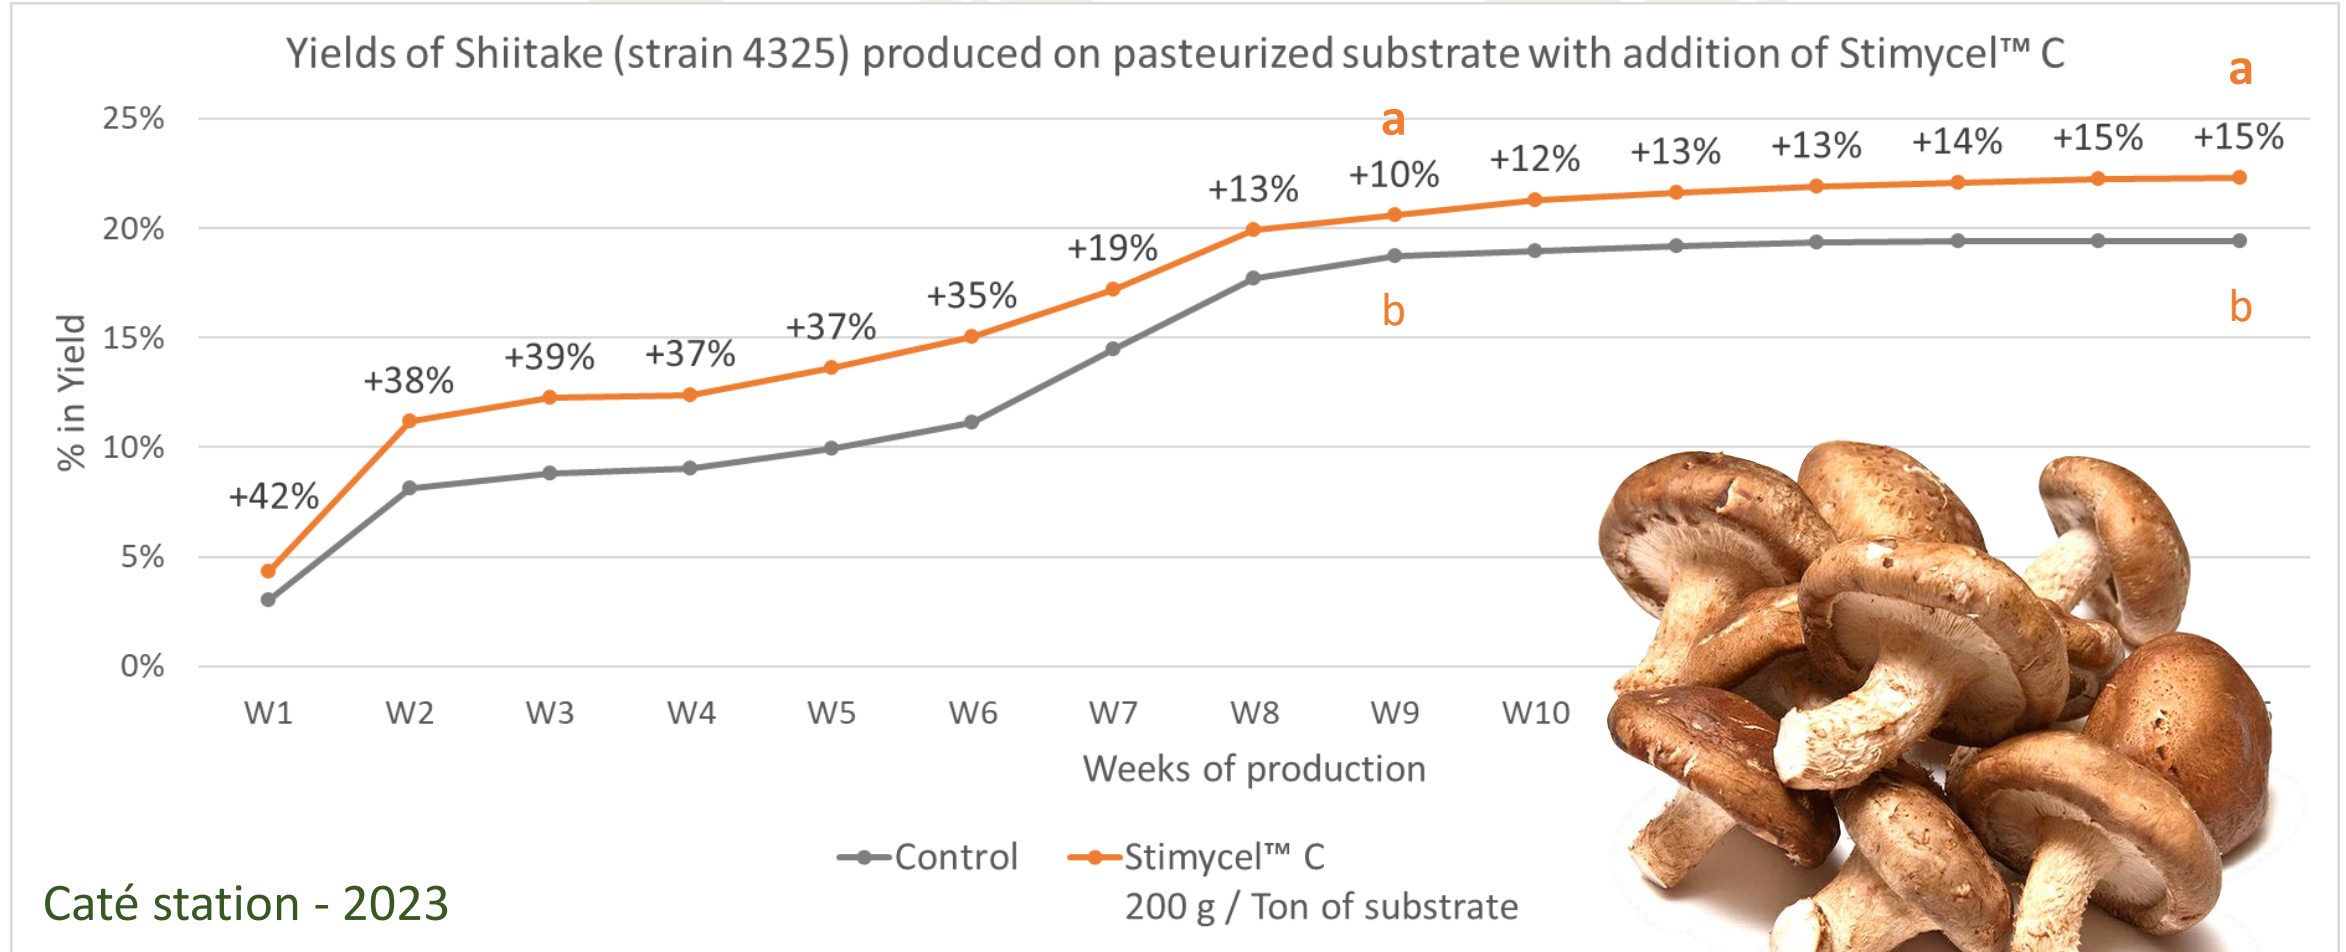

- ✓ **MA** in Europe - **BE NL IT CH**.
- ✓ Suitable for **Organic Agriculture**.
- ✓ Made and sourced in **France** 
- ✓ **1st patent granted** in FR / pending in **EU + CN**.
- ✓ **2nd patent granted** in FR / pending in **EU + CN**.

Stimycel™ C increases yields in Shiitake production

Stimycel™ C increases yields in Shiitake production

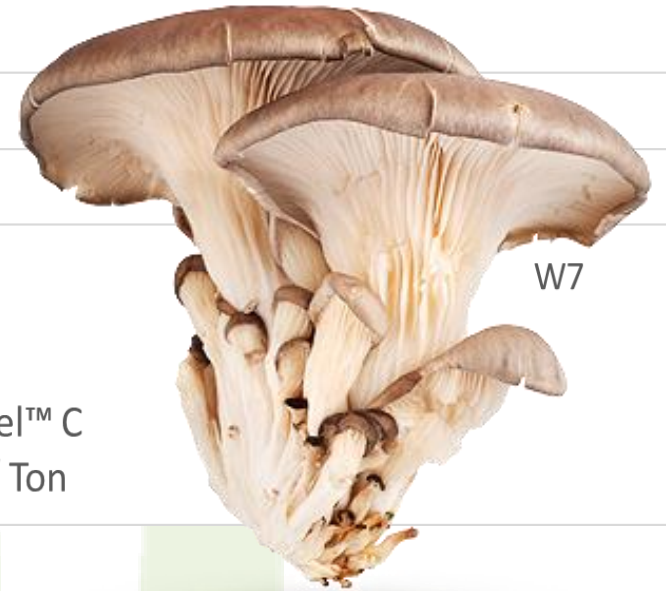

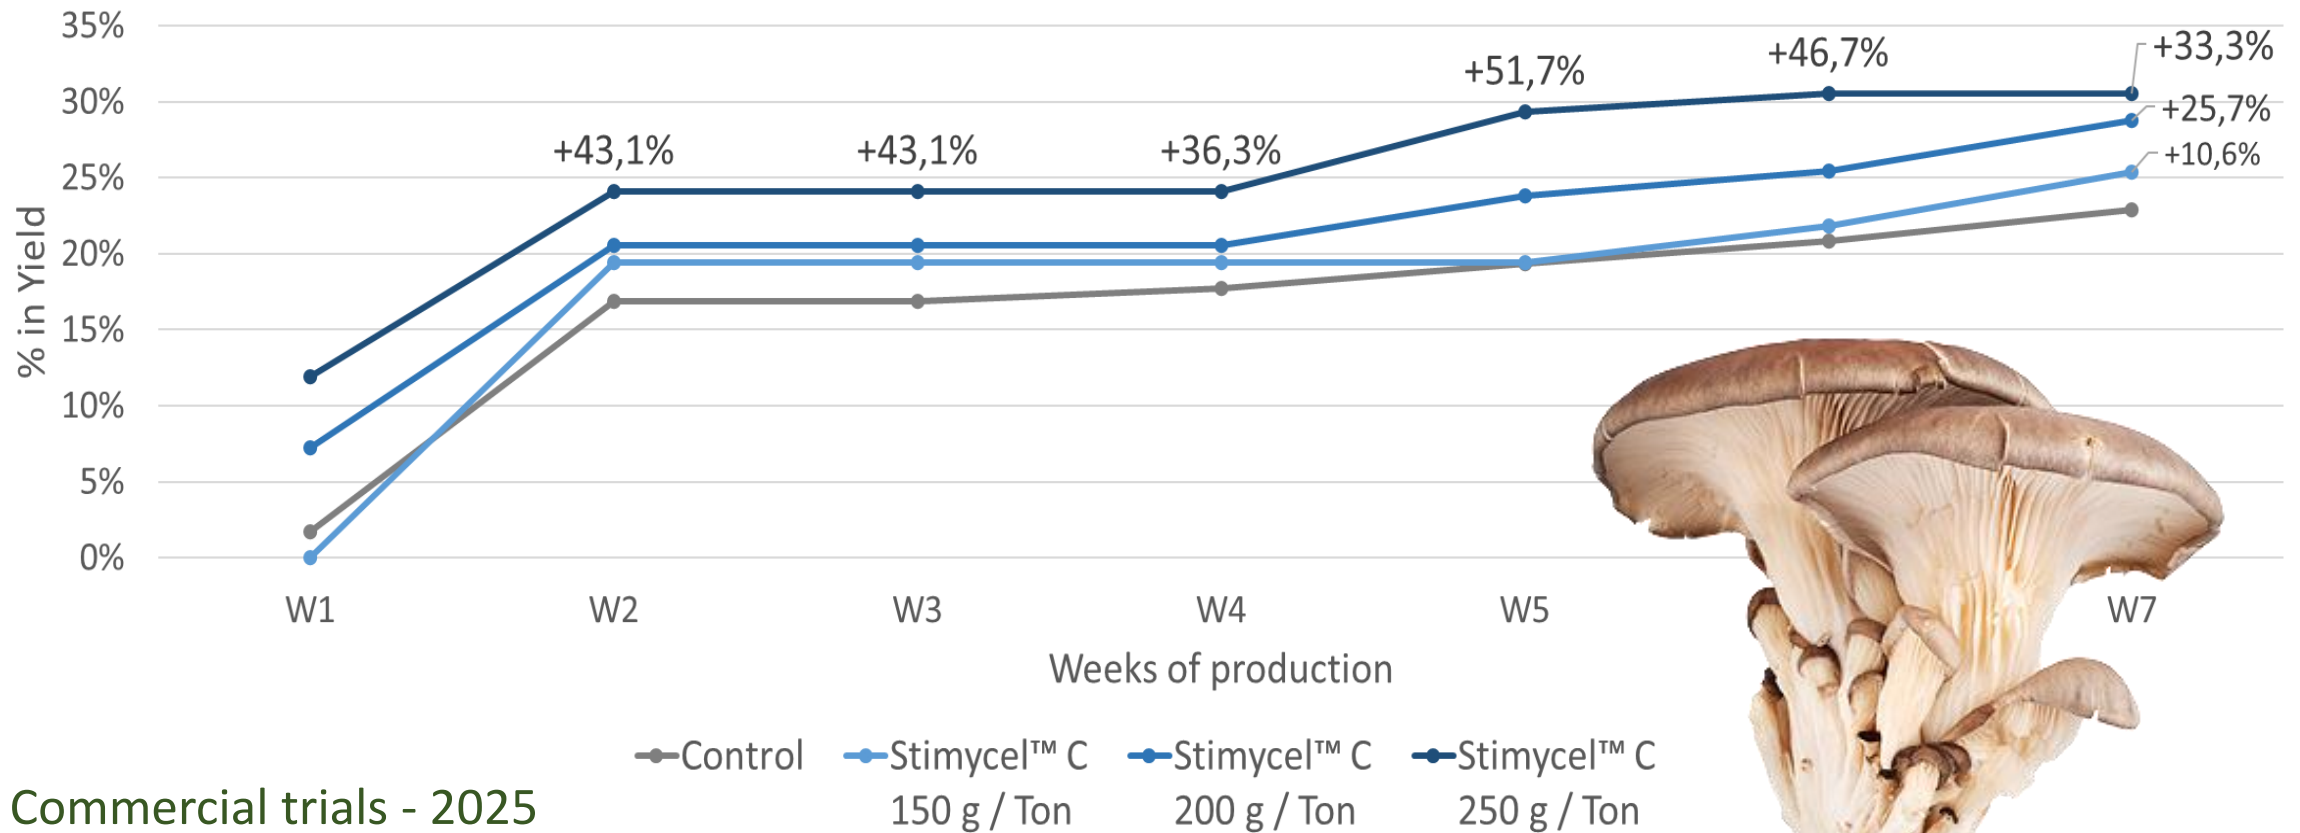

STUDENT (threshold 5%)

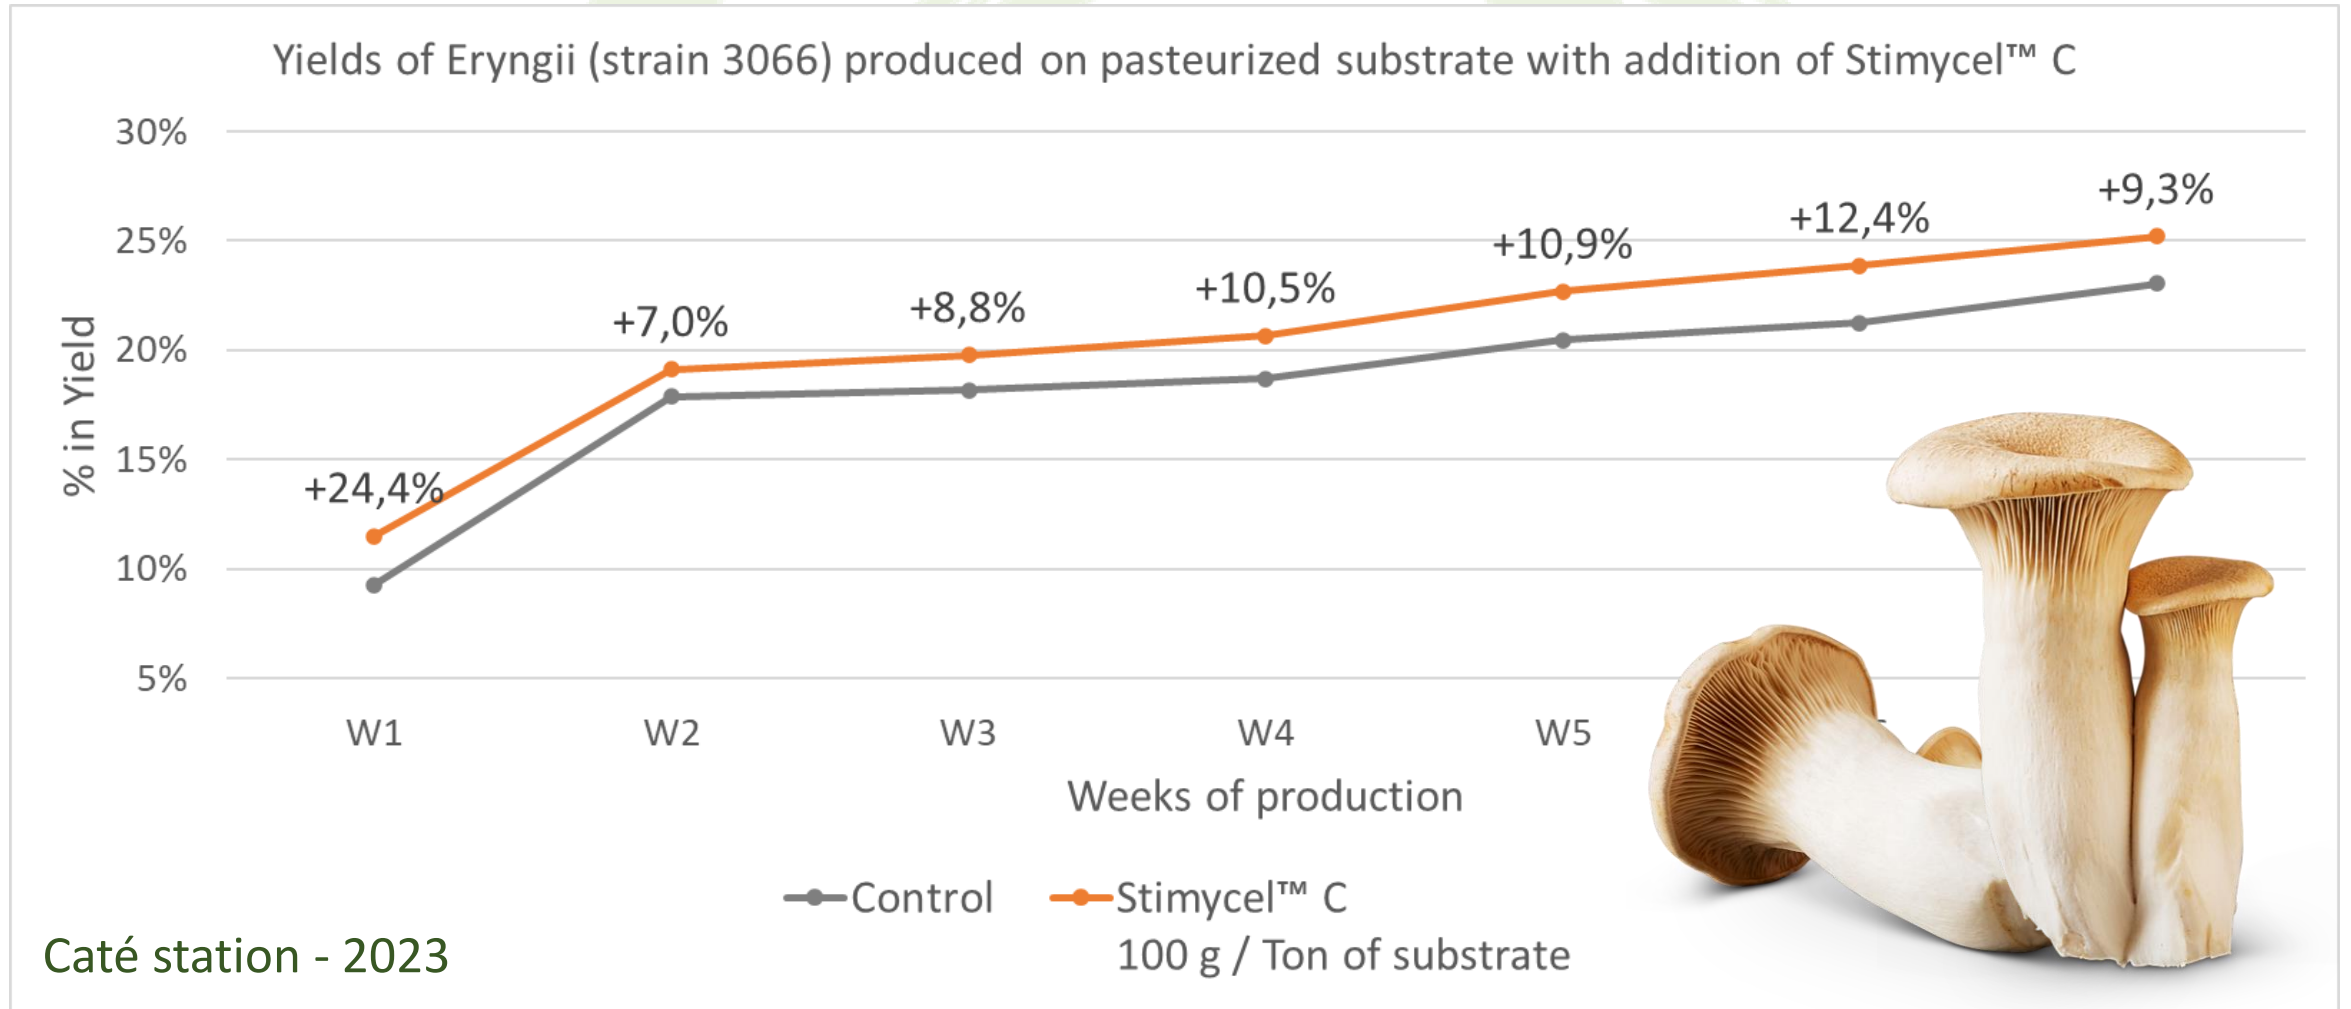

Stimycel™ C increases yields in Oysters production

Yields of Oysters (strain M2191) produced on pasteurized substrate with addition of Stimycel™ C

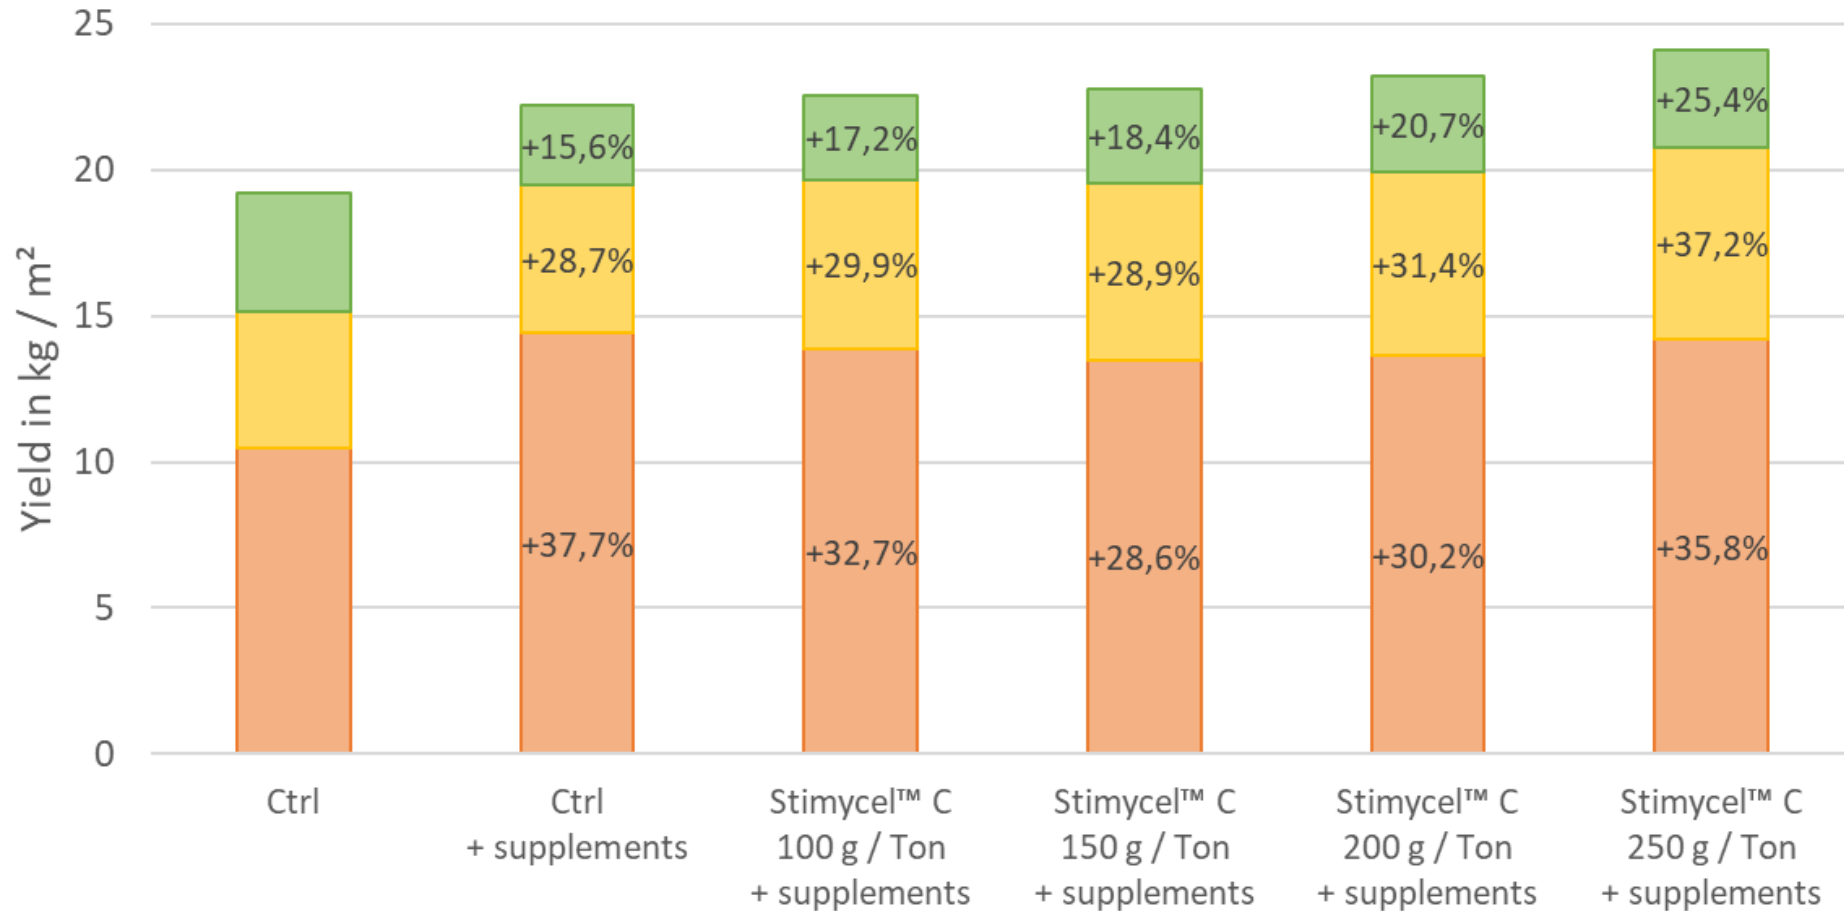

Stimycel™ C increases yields in Eryngii production

Stimycel™ C increases yields in Agaric production

Yields of *Agaricus* (Heirloom®) produced from phase II compost with addition of supplements pre-mixed with Stimycel™ C

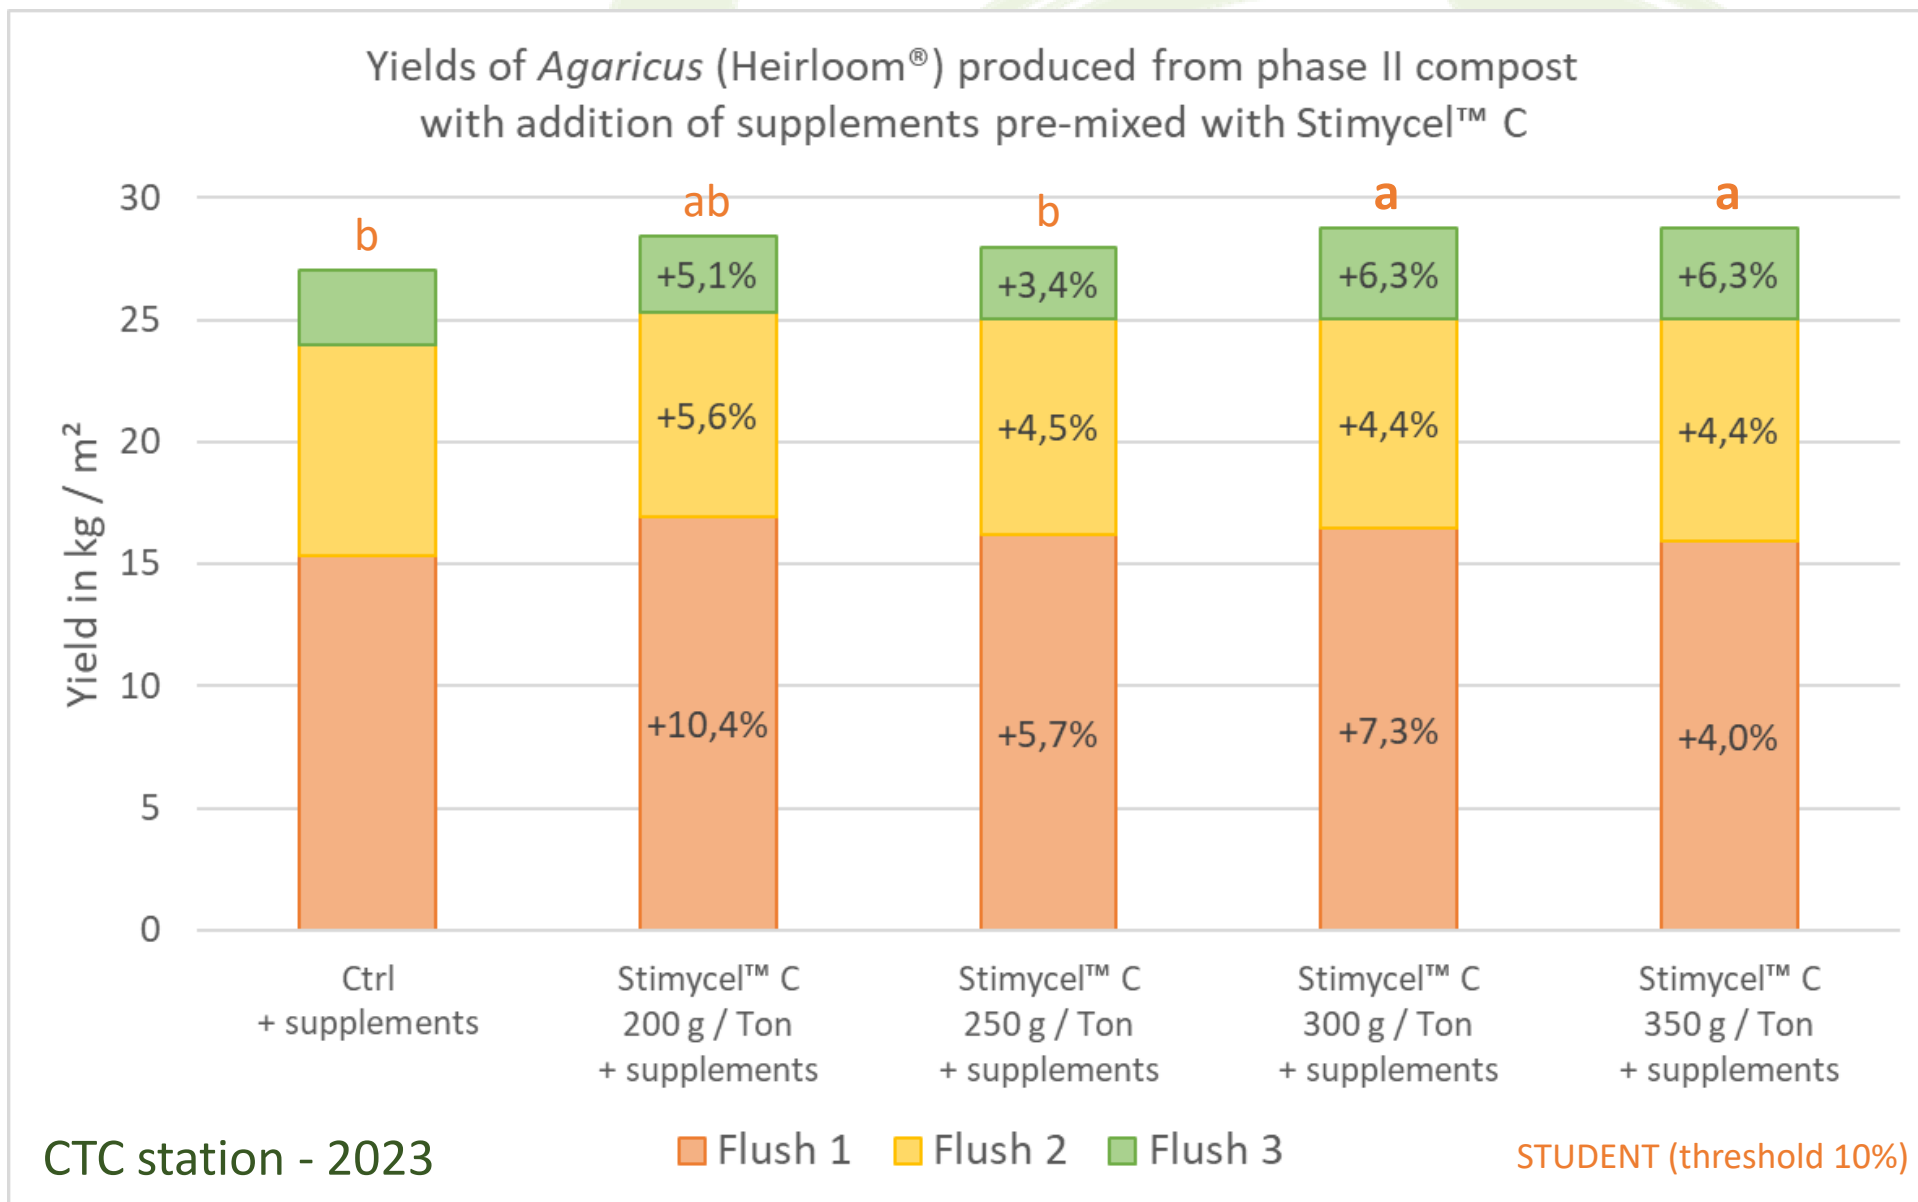

CTC station - 2023

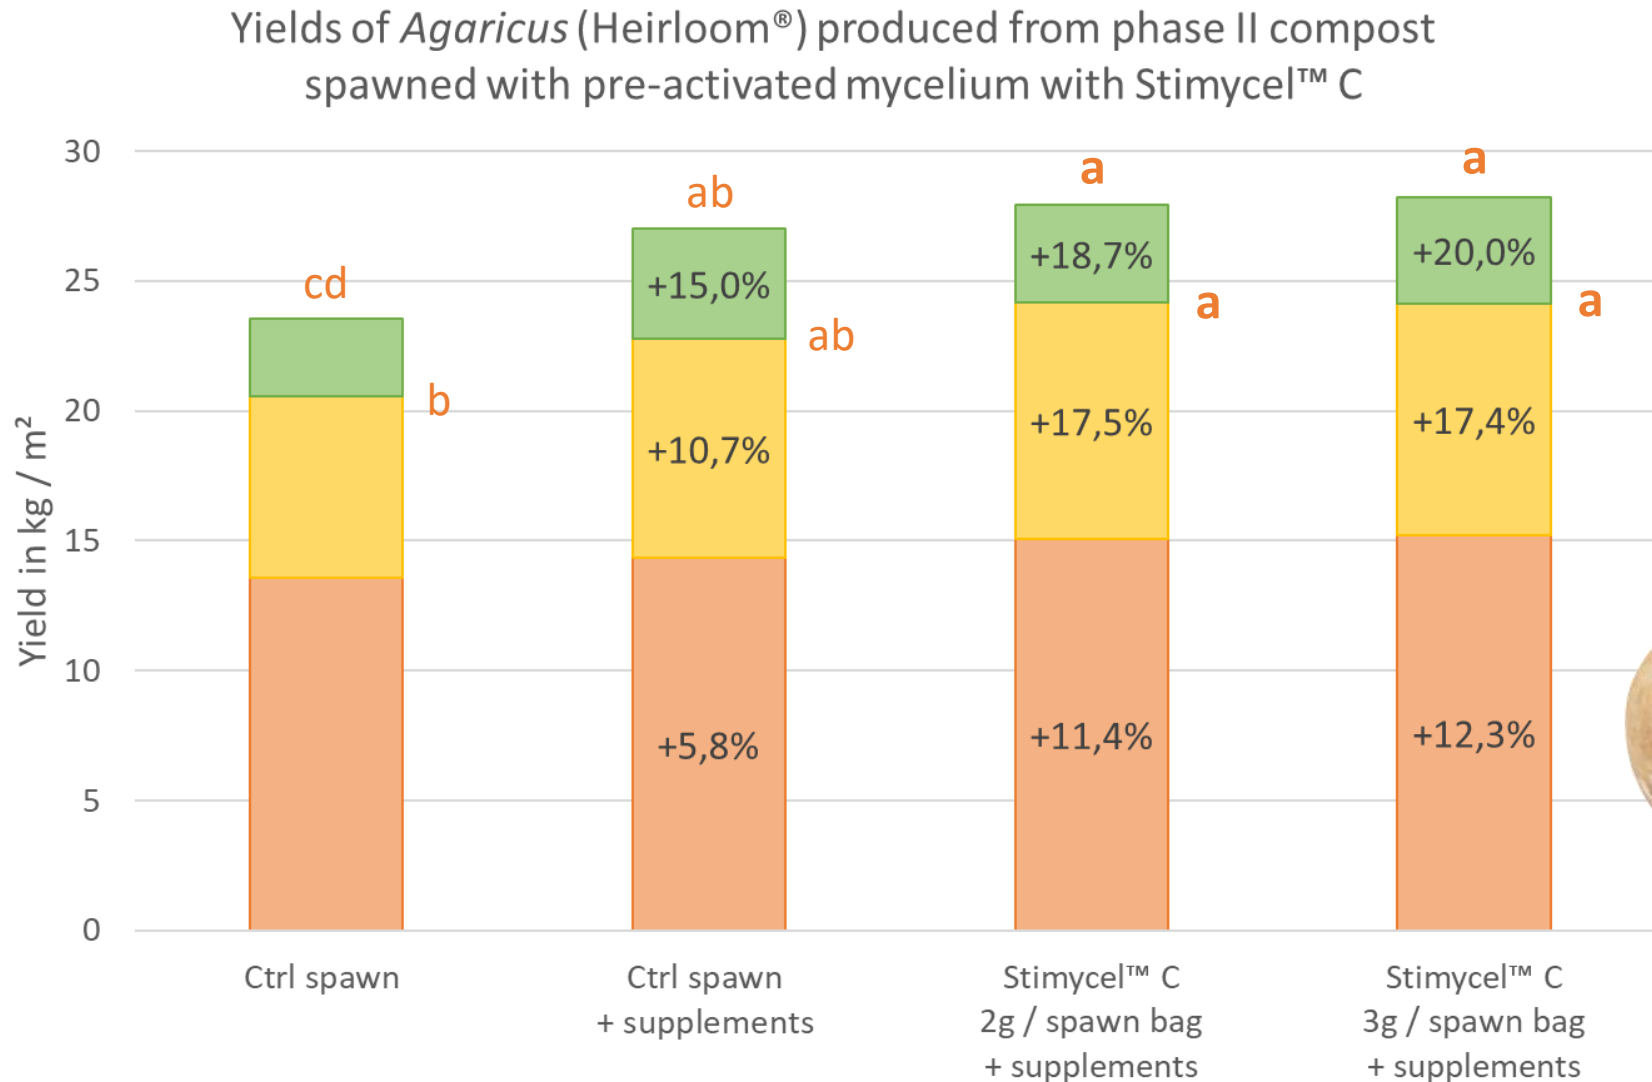

Flush 1 Flush 2 Flush 3

Stimycel™ C increases yields in Agaric production

Stimycel™ C increases yields in Agaric production

Stimycel™ C

activates the mycelium
and improves its ability
to colonize substrates.
